

- - -Win Savings (tm) - - -

Version 3.0

Requirements:

- 1). Windows Version 3.1 or higher
- 2). The file VBRUN200.DLL, installed in your Windows\System directory (all Visual Basic programs require this, you may already have it and if you don't you will probably want / need it sooner or later).
- 3). The File GRID.VBX installed in your Windows\System Directory.

Installation:

- 1). Make a new directory named "WinSave" and copy WinSave.exe (and optionally WinSave.wri, and Help.wri to it) You may copy these files to your Windows directory if you wish.
- 2). Create a new program item (see your Windows documentation) for Win Savings.
- 3). If you want to start it each time you use Windows include it in the STARTUP group.

The files that are included in the package are as follows :

WinSave.exe
Grid.vbx
Help.wri
WinSave.wri.....This file.

Operation:

Read Help.wri File.

Have fun and Please Registered.....
Thank You.

On the registered Version you **WILL NOT SEE THE NOTICE SCREEN ANYMORE (NAG SCREEN)**, also you will receive

several of our other programs to try out.

Other programs from G. L. Liadis software:
