

Congratulations! You now have a copy of HOUSE MOUSE FOR WINDOWS v1.0. This shareware amortization program offers:

- * immediate re-calculation of monthly payments, total loan interest and total cost as factors are varied
- * graphs of interest and principal based on payment and loan life
- * selectable loan factors for calculation
- * easy to use mouse-driven input screen
- * printable graphs, schedule and comma delimited file (for import into your favorite spreadsheet)

Please try out the program and register it if you choose to keep it. Registration instructions are shown in the title screen.

The program consists of three files:

Name	Bytes	Date	Time	McAfee Validate v0.4	Check Method 1	Check Method 2
HMV1.EXE	136838	11/17/92	10:17 PM	640E	011F	
HM.HLP	28438	11/17/92	8:55 PM	76AA	0083	
README.DOC	1808	11/17/92	10:30 PM			

Alteration of these files is strictly prohibited. Feel free to distribute the compressed file (HMV1W.ZIP), which must contain these three files.

This program must be distributed without charge, except for a nominal distribution cost, unless written permission is obtained from Kestrel Computing Company, Inc. This program is not public domain and remains the copyrighted product of the Kestrel Computing Company, Inc.

Note: A Visual Basic application, HOUSE MOUSE FOR WINDOWS v1.0 requires Microsoft Windows 3.X or higher running in standard or enhanced (386) mode and the Microsoft Runtime file VBRUN100.DLL.

We hope that our commitment to quality encourages users to become our customers!
