

# Welcome to the world of Powersource CDs !!

## TRAVEL TO SPACE

### ABOUT THE CD

CD "TRAVEL TO SPACE" is one of the finest space collections. It contains images over 2000's PCX, GIF and BMP files including the Space Shuttle, Jupiter and Saturn projects, Voyager at Neptune, Magellan at Venus, the Yuygen Probe, Iras II, Halley's Comet. Also featured are historical photos and drawings from early manned space flights, special projects, and artists renderings of future NASA missions and exploration. This CD also contains the collection of astrology and astronomy applications which extends to the user a multitude of programs that will allow you to do the astronomical simulation of the planetarium, calculating natal charts, a voyage simulator, star, weather and biorhythms, star, weather and almanacs etc.
