

ReadMe File

Share must be loaded:

Share.exe, which installs file-sharing and locking capabilities on your hard drive, must be loaded for this product to function properly. If you receive an error message concerning **share.exe** you must include **share.exe** in your **config.sys** file and reboot your computer.

The line below should be included in the **config.sys** file:

install=c:\dos\share.exe /F:5100

/L:500

Video for Windows Installation:

In order for video to play properly you must install Video for Windows. To install, click the **VfW 1.1** icon in the USA Multimedia Atlas program group.

Some Mouse Configurations Affect Icon Display:

If you encounter problems with icon display, please check your mouse setup. USA Multimedia Atlas may encounter display problems if you choose a mouse pointer size other than the default.
