This Demo Help Doc contains an <u>abridged</u> version of the AFP 50-34, Vol 1, Chapters 4 and 14; it contains no stock questions (that would be illegal).   It does contain information from each chapter that test questions are likely to be formulated from.   PFE Help Doc can be displayed while working on other windows software (see Instruct). To order complete hypertext PFE Manual, click   "To Order" button.
