

## **Changes and Fixes -**

- 1.1 fixes error 'dataset not in insert mode' when closing the form. now adds current amount to the monthly leftover total.
- 1.2 fixed installation problem and added function to set how many weeks left in the month.
- 1.3 when paid item was unchecked it wouldn't save the unchecked item. leftover amount was always figured out on a 172 hour week. now it's more accurate because it bases leftover off of either a 4 or 5 (2 or 3) paycheck period. installation had wrong default folder and names.
- 1.4 fixed calculation problem when paychecks left was adjusted. it now saves check marks for items paid, adjusts totals when going to different budget names and when paychecks left adjust, automatically. click on calculator to pull up the Windows calculator.
- 1.5 added registration information.
- 1.6 fixed invalid directory error.
- 2.0 cosmetic changes, can now enter 0 weeks left, print report option.
- 2.1 Fixed 'Invalid Directory' error.

## **Directions -**

With BlackBoard Budget you can estimate how much money you'll have at the end of the month. You basically fill in your expenses on one page and your income information of the other. Then click Save and Total. Your amount left over is shown on the second (income) page.

As you pay your bills, check them off and click Save and Total. When you do this your totals are re-adjusted.

The Pay On field is just for your information and to remind you when to pay each line item.

To print a monthly report, click FILE, PRINT or FILE, PRINT PREVIEW to view it on screen.

## **Features -**

Find out how much money you have at the end of each month, what percentage is spent on each item, when each bill is due, if you can afford new monthly payments, and what you can afford in the future by adjusting your predicted income, print preview or print a monthly report.

## REGISTRATION FORM

E-mail questions to [dalin@aol.com](mailto:dalin@aol.com)

Get the newest version at <http://members.aol.com/dalin>
