

Instructions for Registering David's Backgammon

Read the information below then select Print Registration Form under the REGISTRATION menu to print out a form letter that contains the information I need. This prints the information requested below automatically.

1 - If you have a registered version (nothing is disabled) from someone else and just want to register your copy send \$20. I will send nothing now but will inform you of updates if you give me your address or e-mail address.

2 - If you are happy with the version you have, you can register by sending the 3 letters and \$20. I will send you a 3 letter password that makes your copy fully functional.

3 - If you want me to e-mail the latest version send \$25. Please be sure to include enough information so I know how you want it sent and whether you want the Windows or Mac version. I prefer e-mailing the latest version. Its easier, less expensive and much quicker.

4 - If you want me to mail the latest version on a disk send \$25. Please be sure to include enough information so I know how you want it sent and whether you want the Windows or Mac version.

If you would like a manual on disk or e-mailed add \$3.

Currently only cash or checks drawn on american banks are accepted.

For information or comments send an e-mail to MacGammon@aol.com or send to:
