

Registering BulkRate

BulkRate is shareware. You may try BulkRate for free, and give copies of the unregistered application to your friends. I ask that all documentation be included if you pass it on to a friend or upload it to a BBS.

If you wish to continue using BulkRate, I ask that you pay the shareware fee. BulkRate has the following pricing:

- 1-9 single user licenses, \$25 per user
- 10-49 single user licenses, \$20 per user
- 50+ single user licenses, \$15 per user

A Site License costs \$1000 (roughly equal to 67 users) and covers all locations for your organization within a 160 kilometer radius of your site (100 miles). One big advantage of a Site License is that you do not need to keep track of how many people at your site are using the software.

A World-Wide License costs \$5000 and it covers all locations for your organization on the planet Earth.

Paying for BulkRate is fairly simple. Open the Register application that accompanies BulkRate. Enter your name, your email address, and the number of single user licenses you wish to purchase (or Site or Word-Wide licenses). Save or Copy or Print the data from the Register application and send the data and payment to Kagi Shareware. Kagi Shareware handles my payment processing.

If paying with Credit Card or First Virtual, you can email or fax the data to Kagi. Their email address is sales@kagi.com and their fax number is +1 510 652-6589. You can either Copy the data from Register and paste into the body of an email message or you can Save the data to a file and you can attach that file to an email message. There is no need to compress the data file, it's already pretty small. If you have a fax modem, just Print the data to the Kagi fax number.

If paying with a credit card, you may also pay via the World-Wide-Web:

<<http://kagi.direct.net/cgi-bin/register1.cgi?IH>>

Payments sent via email or WWW are processed within 3 to 4 days. You will receive an email acknowledgement when it is processed.

Payments sent via fax take up to 10 days and if you provide a correct Internet

email address you will receive an email acknowledgement.

If you are paying with Cash or USD Check you should print the data using the Register application and send it to the address shown on the form, which is:

Kagi
1442-A Walnut Street #392-IH
Berkeley, California 94709-1405
USA

You can pay with a wide variety of cash from different countries but at present if you pay via check, it must be a check drawn in US Dollars. Kagi cannot accept checks in other currencies, the conversion rate for non-USD checks is around USD 15 per check and that is just not practical.

If you have a purchasing department, you can enter all the data into the Register program and then select Invoice as your payment method. Print three copies of the form and send it to your accounts payable people. You might want to highlight the line that mentions that they must include a copy of the form with their payment. Kagi can not invoice your company, you need to act on my behalf and generate the invoice using the Register application and handle all the paperwork on your end.

Please do not fax or email payment forms that indicate Cash, Check or Invoice as the payment method. As far as we know, there is still no technology to transfer physical objects via fax or email and without the payment, the form cannot be processed.

Payments sent via postal mail take time to reach Kagi and then up to 10 days for processing. Again, if you include a correct email address, you will hear from Kagi when the form is processed.

Registration code

Once Kagi notifies me of your payment, I'll send you a registration code that disables the registration message and enables file transfers. It's important that I have a reliable way to contact you so that I might send you your code. That's why I request a postal address as well as an email address if you have one. That way, if I cannot reach you by email, I can send the code to your postal address.
