Kak e leko i bqrzo iz(ch)islimo pi kogato znae(sh) kak

From: Dragomir R. Radev

Translation:

Although the written Bulgarian mnemonic is gramatically good,
the meaning would be more appropriate if it seem as follows:

Kak e leko i bqrzo iz(ch)islimo pi, kogato znae(sh) kak

The first one is:

How easy and quickly was checked pi if you know how,
and the second one seem like:

How easy and quickly would be checked pi if you know how.
