Pe numarul e  
savantul il stimeaza,  
E academic si formeaza  
Baza pentru logaritmi.

From: Radu Ionicioiu, Andrei D. Caraman

Translation:

The number e,  
the scientist esteems it,  
it's academic and forms  
base for logarithms.

From: Radu Ionicioiu

Un Scotian a inventat un logaritm e neperian.

Comment:

The first "t" is written with cedille, i.e., "\c t" and is read "tz"

Translation:

A Scottish man invented a Neperian logarithm "e"

From: Vladimir Balan
