Corel Panter IX.5
trial
Corel, http://www.corel.com
Requirements: Mac OS 10.2.8 or later
Corel Painter IX.5 is the latest version of this popular paint application. New features include Photo Painting palettes, Eraser, Cloner, and Rubber Stamp tools, 11 hours of movie-based training from lynda.com, and more.

EazyDraw 1.9.0f
public beta
Dekorra Optics, support@eazydraw.com, http://www.eazydraw.com
Requirements: Mac OS 10.4.3 or later
Create pro-looking illustrations even if you can't draw a stick figure. This entry-level vector-based illustration app puts easy-to-use Bezier curves, grouping tools, colors, gradients, and hundreds of prefab shapes into the hands of Mac OS X users. It can also import Mac Draw II files.

EazyDraw 1.9.1
demo
Dekorra Optics, support@eazydraw.com, http://www.eazydraw.com
Requirements: G3, Mac OS 10.2 or later
Create pro-looking illustrations even if you can't draw a stick figure. This entry-level vector-based illustration app puts easy-to-use Bezier curves, grouping tools, colors, gradients, and hundreds of prefab shapes into the hands of Mac OS X users. It can also import Mac Draw II files.

Footlights 2.0
freeware
Radical Breeze, webmaster@radicalbreeze.com, http://www.radicalbreeze.com
Requirements: Mac OS 10.3 or later
With Footlights you can play your videos using a variety of options: transparent movie windows, full-screen playback, adjustable playback speed, and more.

iScreensaver Designer 3.4
trial
Xochi Media Inc., xmi@xochi.com, http://iscreensaver.com
Requirements: Mac OS X or later, QuickTime 5 or later
Turn your QuickTime movies, pictures, graphics, and other eye candy into a self-contained screen saver with this app. iScreensaver Designer features a nice WYSIWYG editor that allows you to convert any QuickTime-compatible file (like TIFF, JPEG, AVI, MPEG, MooV, and more) and add splash screens, Web links, alternate content, and more into a single multimedia file.

iView Media Pro 3.0.2
trial
iView Multimedia, http://www.iview-multimedia.com
Requirements: Mac OS X or later
MediaPro is a digital-asset management and cataloging solution for photographers and other creative professionals. It enables you to create a customized, centralized, and searchable

repository through which you can manage a wide variety and high volume of digital files. MediaPro supports more than 100 different file formats including images, audio, video, fonts, illustrations, DTP, HTML, and digital-camera RAW files (including DNG, Nikon, Canon, and Kodak).

KnotsBag Pro 1.5.5
shareware
Géraud Bousquet, http://perso.wanadoo.fr/hypatiasoft/A_index.html
Requirements: Mac OS X or later
With KnotsBag, you can design knotwork very easily on the basis of a graph according to the method of Christian Mercat.

MPEG Streamclip 1.5.1
freeware
Squared 5, squared5@alfanet.it, http://www.alfanet.it/squared5
Requirements: Mac OS 10.2 or later
You can use MPEG Streamclip to open most movie formats including MPEG files or transport streams; play them at full screen; edit them with Cut, Copy, Paste, and Trim; set In/Out points; convert them into muxed or demuxed files; or export them to QuickTime, AVI, DV, and MPEG-4 files so you can easily import them into Final Cut Pro, DVD Studio Pro, and Toast 6 or 7, and use them with many other applications or devices.

Sproing 2.0.1
freeware
LorenB.com, lorenb@lorenb.com, http://lorenb.com
Requirements: Mac OS X or later
Sproing is a soft-body simulator. By connecting "nodes" with virtual "springs," one can create objects of all kinds that bounce around your screen realistically.

SwiftPublisher 1.2
demo
BeLight Software, http://www.belightsoft.com
Requirements: Mac OS 10.3 or later
A page-layout app for creating flyers, letterheads, brochures, newsletters, and more.
