

iScreensaver Designer

Version 3.4

Welcome!

This installer will place **iScreensaver Designer** and some sample projects in your Applications folder.

iScreensaver Designer will help you create a screensaver using video, pictures and music. Also, it will build "installer" programs for both Macintosh and Windows computers, which you can give to others so they may to install the screensaver on their computers.

A Wizard will help you create your first screensaver. Detailed Help is available when the program is first launched.

You may test all features for free for an unlimited time period as per the software license.
