microSynth 1.0

Installation

Drag & Drop "microSynth" to your hard drive.
(You can drop it to anywhere but the Applications folder is recommended.)

Registration & Activation

When the application is launched, registration window will be appeared if it's an unregistered copy.   You can register your copy either via my web-store or from the application.

• Register from the application :
In the registration window, click "Register Online" button and follow the instruction. When it's finished, your copy would be registered and activated. You will also receive confirmation e-mail which contains your registration number.

• Register from the Web-store :
After your registration is processed, your registration number will be sent to you by e-mail in minutes.   Enter your registration number in the text field in the "Registration Panel" then click "OK" button, your activation process will be started. This activation process will be done through the eSellerate server. The server may need 15~30 minutes to be ready for your activation after your purchase.   If you get any error massage during your activation process, please take several minutes and try it again.

Web-store is linked from,
http://homepage.mac.com/seishu/ssworks/

"microSynth" can be activated on only one machine per license.
Please keep your registration number safe, it will be needed for re-installation.

Uninstall
Just move the application to the trash.

System
OSX Version 10.2 or later.

Known Problems

If you have any question, please feel free to send me an e-mail.
