

Creating Themes

For help on installing and creating themes go to the help menu within RapidWeaver.

Themes are stored in the support folder. this can be found in your home directory at [Library/Application Support/RapidWeaver](#)

You can also find help and other 3rd Party themes in our online forum at: <http://www.realmacsoftware.com/support/index.php>

We hope you enjoy using this unique product,

The Realmac Software Team.
