# 🗔 Converting to MsgBox3D

You can use program MsgConvt.Exe to convert Visual Basic MsgBox statements to MsgBox3D statements.   The process is fully documented in the help file provided to registered users.   The conversion program's main screen:

```
┌─────────────────────────────────────────────────────────────────────────┐
│ ─        Convert a Project from VB's MsgBox to MsgBox3D                ▼ │
├─────────────────────────────────────────────────────────────────────────┤
│  File   Options                                                    Help  │
│                                                                          │
