How To Obtain Source Code

By registering Ez-Face you will obtain a zipped file containing all forms, modules and artwork used to create Ez-Face for both SDI (Single Document Interface) & MDI (Multiple Document Interface) modes . I apologize for not making Ez-Face freeware but I have spent a lot of time on it and at least would like to recover my connect time.

Register via Compuserve GO SWREG. ID # 5020. Price is \$11.00 (US).

Registered users receive royalty-free license to use Ez-Face.

Why Ez-Face

I developed Ez-Face as a re-usable starting point for my development projects. By emulating the Microsoft Office interface, I give users something they are already familiar with. I hope that you find Ez-Face as useful as I have.
