

Display Cabinets

Bring your treasures out of hiding and give them a stage in display cabinets. Two kinds of cabinets showcase collections:

China cabinets belong in dining areas, where they show off beautiful plates and serving pieces. Choose from elegant, antique-style glass-front cases or country-style hutches with open shelves.

Curio cabinets hang on the wall and hold small collectibles. If you want to keep dust away, get glass doors. Don't hang curio cabinets directly over chairs where you might bump your head on them.
