Roadways PC is an easy to use program to help you find the shortest route from one city to another.

This will help you a great deal if you are debating about what classes to take or how to make them fit in your schedule the best way.

This database is for Science Fiction, Fantasy, Star Trek, and similar subjects. Conventions, bookstores, publishers, VIP's, and more.

Software Manager is a utility to track your program disks either at Home or at the Office. Now you will have a complete tracking system.

A database for Boy Scout troops.

The ULTIMATE shareware author resource! Over 4,000 addresses of disk vendors. Plus addresses for BBS, computer clubs, and more.

Time Card is a Small Business accounting tool to track employee work hours. It works by employees punching in and out from a time card.

Trading card database. Track and organize your cards. NOT just sports cards... any type of trading card.

Recordkeeping for collections of video cassettes and laser discs. Attractive visually-oriented environment. Report writer plus video editing.

WORKBASE provides an interactive environment for over 90 "dBASE language" commands, including some that may be new to you.

A powerful ASCII text editor, full featured!

A "no-nonsense" full-screen text editor which is both powerful and extremely easy to use.

Bingo is a full-featured text editor at the right price. Some of its features include: Virtual memory file storage; up to 240 MegaBytes of storage.

Top rated editor! New: Color Syntax Highlighting for programs, scripts, etc. Displays reserved words, comments, constants... and more.

BREEZE is an easy to use word processor/text editor that does everything you ever wanted of a text processing program, and more.

Does the work of searching disk drives for a lost file or in the case of a text file will search that file for the word or phrase you're looking for.

"Everyone's Editor" Mouse. SVGA support. Load wildcards, edit 100+ files. Search/Replace across all open files. Full on-line help.

Elvis is a clone of vi/ex, the standard UNIX editor. Elvis supports nearly all of the vi/ex commands, in both visual mode and command mode.

VIEW and QVU are file viewing utilities. VIEW allows you to read ASCII, Wordstar, WordPerfect (4.2 through 5.1, including WordPerfect 5.1).

The Illustrated Reader is a text file reader that supports full-color illustrations. Can function as a regular text file reader, but is more powerful.

A macro package for WordPerfect for DOS, version 5.1 Retrieves a letterhead, fax cover sheet, or invoice, and adds any of 30 macros to the document.

This utility will add left, top, and bottom margins to text files. Automatically computes max available space for left margin. Adjusts margins as needed.

The Perfect TSR Notepad. Occupies less than 16K. Creates, edits, and retrieves up to 99 screensize notes. Automatically saves notes when you exit.

An enhanced DOS-based text editor with a graphical interface and mouse support. The graphical ButtonBar gives fast access to editing commands.

An editing enhancement for WordPerfect 5.0 & 5.1 for DOS. Editing time is saved by using single keystroke commands, read-only editing, and more.

This great text search/file gets better with SEARCH and REPLACE! PSEARCH is one of the fastest text search programs available.

Rainbow is a utility that will colorize your editor. At first it will seem inconsequential, but try it for 15 minutes and then try not to use it.

The text file viewer designed to be used by both sighted persons, and visually impaired persons who use screen readers and Braille.

Take any ASCII text file and convert it to a self executable \*.COM file. Very nice! Features include pgup/pgdwn scrolling, copy, paste, and more.

File reformatter/word wrap. Sleek will remove all EOLS within paragraphs ( CR/LF ) Also gives you the option to word-wrap text to fit the screen.

ASCII Text Spelling Checker, ShareSpell has a 112,000+ word dictionary and will give suggestions for the correct spellings of words.

A program which reads a text file containing columns of numbers and calculates statistics on them (count, sum, average, standard deviation, etc.)

BIG text for ASCII or ANSI files, 54 fonts to choose from. ANSI files can be saved in color and can be loaded in THEDRAW to view them.

A pop-up Thesaurus, whenever you need a different word or a different shade of meaning than the word that comes to mind, it's there.

A full featured text editor intended for program development, text preparation and the editing of any text or binary files you will need.

Vision Edit is an easy-to-use text editor for IBM PC compatible microcomputers. Vision Edit allows editing multiple text files simultaneously.

Easy GradeBook provides the ability to store a class list and grades. Easy GradeBook automatically calculates student averages and class statistics.

Fictionary is a game of obscure words. The program is for one or more players. Just type FICT at the DOS prompt to start the game.

FORMULA1 is the first part of a two part program which covers the complete High School or first semester College Algebra course.

This program produces screen text displays of many of the important freedom documents of the United States. The Magna Carta, Declaration of Independence, etc.

GENEALOGY TEXTBOOKS, MANUALS, HOW-TO BOOKS, GENERAL REFERENCE AND FINDING AIDS... If your into family history, this is for you.

Gradebook program with an easy SAA-style interface, pull-down menus, dialog boxes, full mouse support, and powerful hot-key commands.

Hundreds of tips & tricks for Laptop users. Travel with laptops, battery charging, more! How to buy a laptop or portable PC.

The \*reader-friendly\* program for electronic books made with Orpheus Author. Offer your end-user a notepad, bookmarks, and more.

The ultimate beginners computer tutorial. Study DOS, history of computers, batch files, virus prevention, how to buy a PC, test drive, and more.

Helps high school seniors and college freshmen to understand physics better. Uses graphical animation for the demonstration of concepts.

A tool to help you "quickly glean the essence from text and apply the principles to your life." Speed readers are not limited by the length of the text.

Make or take quizzes in three formats - match the question with the answer, type in an answer to the question, or choose the correct answer.

An entertaining way to build your French vocabulary and knowledge of French history. The object of the game is to move a game piece across a board.

## Sheet1

A new and exciting test generation program for instructors of any level. Uses Standardized question types; True/False, Multiple Choice, Fill in the Blank, etc. The Wintertree Writing-Style Analyzer helps improve your writing style in two ways. First, it examines your writing for common errors and suggests corrections. Improved and more feature-packed sequel to popular WORD RESCUE. The Guzzles are back and stealing all the numbers. #1 WORD RESCUE, match words with pictures. The best game of it's type. Great!

This program is a basic flash card addition exercise. I wrote it for my son who is very young first grader. His teacher expressed appreciation for this program. Epic's New Educational Game! An excellent shareware learning experience from the makers of Jill of the Jungle.

The Animated Memory Game uses animated pictures to test memory skills. By matching hidden pictures in pairs you win the game.

The Build-A-Fish program allows the user to define physical attributes of a fish and then the computer displays the fish.

One of the best math tutoring programs on the market today. The registered version of MathMan Plus (TM) is capable of providing personalized instruction. This software is a subset of School-Mom. Basically, it's the math section of School-Mom. It contains multi-level instruction for all levels of math. Comprehensive educational software for children of all ages. Has multiple learning levels for music, math, English, spelling, etc.

Teach kids the basics of banking and handling money and automate their allowance at the same time. Colorful ATM screen, etc.

Raina II is a program for infants and young children to play, explore, and build confidence at a computer.

Read More encourages young readers by offering titles that make reading fun. Kids can print those titles, which are listed on the screen.

Three rhyming word games. Depending on their level of understanding, these games are appropriate for ages 4 to 9.

A new educational package with REAL HUMAN SPEECH that teaches children (1-17) how to talk, the alphabet, read, write, spell, etc.

A game designed to help elementary school-aged children learn phonics concepts.

Your mission is to parachute into a high-security island outpost and secure the plans to the ultimate satellite laser weapon. In this game, you are the hero.

This is the second exciting adventure of Nevada Smith. Nevada wasn't satisfied with finding the elusive pharaoh's tomb in his first adventure. Now he's back to find the treasure of the Pharaoh's Tomb.

Cosmo is a lovable extra-terrestrial with a special ability, he has hands that work like suction cups! He can cling to walls, ledges, etc.

Enter an underground world of treasures and traps. This colorful EGA game rivals any commercial game with its arcade quality graphics.

You're the Prince of the Great Kingdom, who as a child watched your father die at the hands of Garth, a power mad warlord who has taken over the kingdom.

Your mission is to stop Dr. Proton, a madman bent on ruling the world with his army of Techbots. As the irrepressible hero Dr. Proton, you must stop him.

Five months straight as the number one selling shareware program program--unprecedented! This vivid EGA game has four levels of difficulty.

One of the first truly "Great" shareware games... it's graphics seem somewhat dated in the fast moving world of computer video games.

Major Stryker is the first Apogee with "triple-parallax scrolling", adding to the illusion of depth and danger. Your mission is to pilot the Starship and destroy the alien forces.

The Monuments of Mars! is an arcade/adventure game set in the near future as you explore a secret underground city on Mars.

You'll guide your character, Alabama Smith (AI), into a vast and dangerous Aztec pyramid. Indiana Jones never had it so tough.

Pharaoh's Tomb is an arcade/adventure game set in a huge Egyptian pyramid. You will need to explore and survive 20 unique levels.

Eight year old Kid genius, Billy Blaze, is in his backyard fort testing out his newly built Photachyon Transceiver. While listening to the radio, he hears a strange signal.

KEEN in GOODBYE GALAXY - CGA VERSION ALL-NEW! Finally in CGA graphics, too! Now those with CGA graphics can enjoy the game.

Dick Olsen's Bass Class fishing game and tutorial. Great user interface, lots of lures to choose from, six are as to fish, and six are as to fish.

A text-oriented user friendly program that simulates NBA pro basketball with extreme statistical accuracy. Play the pro teams and win the championship.

Two anglers fish simultaneously from the same boat, just like the real thing. Eight rods, Thousands of lure/color combinations.

Two new ZZT adventures brought to you by Epic MegaGames. If you liked ZZT, you'll love the 16-color ANSI graphics, tricky puzzles, and a great story.

## Sheet1

Maple is an essential tool for anyone who needs to use or study mathematics. The demo on this disk will give you a glimpse of its capabilities.

Mathematical Function Plotting. Mathplot allows you to enter math functions using ordinary algebraic notation and immediately plots the function.

An easy-to-use hurricane/tropical storm tracking tool that provides the user with current information about the selected storm, including its path, intensity, and other data.

A full function business calculator providing the functions of add, subtract, multiply, percent, divide, square root, exponentiation, and more.

A program for solving equations on the IBM PC. It is easy to use, interactive, and powerful. Many, many features.

Linear & Nonlinear Regression. Nonlin performs linear and nonlinear statistical regression analysis. Nonlin determines the variables that best fit the data.

An AC circuit analysis program that calculates magnitude, phase, group delay, impedance, VSWR, and return loss. Handles complex circuits.

A hypertext, graphics-oriented, physics tutorial which develops a unique "PHYSICS PROPERTY CHART" analogous to the chart in the Star data for SkyGlobe 3.5. It contains extra data for dim stars.

Award-winning Top Ten PC planetarium program that is fast, fun, and easy to use. SkyGlobe has 25,000 stars, constellation names, and more.

A super-smart calculator program that can solve complicated symbolic math equations. Enter your equation or formula and solve for the unknown.

This collection of files has extensive data on each of the chemical elements. There are 103 element data files, each named after the element.

This program began as a dream to be able to put topographic maps in to a computer so that they could be viewed from any remote location.

An integrated package of not only forecasting, but also incorporates a Weather Statistic Database for you to enter your own local weather data.

Weather Pro is a full color EGA/VGA-graphics program which plots high-resolution weather graphic charts. It gets its information from the National Weather Service.

Allows you to create music on your computer. You can: use graphics-based (or text-based) editor to enter notes and view the results.

A very powerful utility which allows you to play customized music and/or sounds from your ANSI files while displaying them.

BASS is a program to produce a bass line, percussion and chords against which you can jam. There are several uses for this program.

A resident program which plays user-defined melody in background mode. While BGP is playing music, You can use computer to do other things.

A full featured program which will allow your CD-ROM player to play a CD Audio disc.

MOD Edit users utility! This program converts raw sound data, VOC files and now WAV files, to SAM files (for use as MOD in other programs).

MusicWare Composer's WorkBench is an integrated notator/sequencer program for the I.B.M. PC line of computers, driving a full range of sound effects.

Room-shaking sound effects and music for your whole family! Requires Sound Blaster card. Turn your PC into a drum pad with this program.

This program teaches kid's of all ages about musical notes. You can set the type of note that appears on the screen from flats to naturals.

A system for displaying guitar-chord diagrams. Features: Right-or left-handed fingering display, Three alternatives for each chord.

ListenUp is ear training software for musicians. ListenUp combines sound and colors in a graphical user interface to help musicians learn to identify notes.

Converts .MOD files to standard .MID MIDI files! MOD2MIDI can be run from the command line.

Will send and receive midi sysex dumps on a PC. The dumps are stored as raw files and are compatible with sysex dumps used by other programs.

This program allows you to write Mod files which can be played using a Mod player. It cannot play the Mod files itself because it does not have a sound card.

Create, edit, and play music on your PC speaker! Graphical interface with staff! Over 100 melodies included! Can export music to other formats.

MIDIMOD is a program which converts music modules generated by Amiga tracker programs (MOD files) to general MIDI format for use on other computers.

A music editor/sequencer for the IBM PC family of computers. It allows you to write music with 4 tracks of digitized instrument sounds.

This program helps in the design and layout of recording studios, listening rooms or other environments where good acoustics are important.

STRING QUARTET is a tuner for violin, viola, cello and bass.

Tune that guitar right the first time. With GUITAR TUNER you don't have to worry about the problems of tuning to inaccurate frequencies.

A DOS utility for converting 8-bit sound files among many of the most common PC formats. It will convert a file from or to any of the supported formats.

AMS is designed as a plug and play replacement for Novell's MENU. Features include zero memory overhead, single directory structure, and more.

A complete NETWORK management system. User preferences allow you to customize the way ASAP! acts on your screen.

Automatic Network Management Software. Experienced PC users will find this product compatible in "look and feel" to many other network management programs.

Chat is a simple application designed to facilitate chatting between users on the same file server, or between other servers available on the network.

A simple encryption package that was created for its simplicity and over-all ease of use. There are other encryption packages available, but this one is the easiest to use.

This program is used to allow NetWare Supervisors to load memory resident programs from the NetWare Login Script without the need for a separate program.

Supervisor Utility to monitor user activity on NetWare v2.1x / v2.2x / v3.x . MONITOR.EXE can be used to see user's file and directory activity.

NOTICE BOARD gives you all the facilities of an office notice board on the PCs in your company's network.

A small device driver (300 bytes) that keeps the workstation clock synchronized with the server clock. Every 8 minutes the workstation clock is updated.

A short program that halts the printer queue on a server, deletes all of a users pending jobs. An optional switch allows the device to be restarted.

This program is designed as a menu system, to be used on IBM or compatible personal computers running Artisoft's Lantastic or other menu systems.

TPAPI is an object oriented library of Netware function calls. It incorporates most of the available calls as of now.

U-Net is the first complete network available via shareware, and also the first network that can be installed by a computer novice.

## Sheet1

Allows NetWare Console Operator to access the file server console of NetWare 286 file servers from any workstation on the network.

A 2column compressed print utility for dotmatrix & deskjet. It prints up to 8 pages on one side of a sheet of paper (or 16 pages on two sides).

Laser printing utility. 4 pages outputs. Maintains formatting, scales fonts. Extensive printer jam recovery. Add file name, date, time.

Enables you to send all the escape sequence commands to your Deskjet printer from your PC-compatible computer by just sending a file.

A program that fundamentally changes the manner in which printing takes place on your computer.

Controls virtually every feature of your LaserJet printer. Change page settings such as paper size, orientation, and margins. Controls printer status.

Allows you to setup many of the printing modes of a Panasonic KX-P2180 printer. The printer must be in Standard mode for this utility.

Contains everything needed to create custom letterheads. Very powerful and easy to use. Imports .PCX graphics.

The Ultimate Diskette Cataloging/Labeling Utility. Make professional labels on your laser printer.

Facilitates full page print procedures and line graphics functions on HP LaserJet Series III printers.

VGA to LaserJet PrintScreen Util LJVGA prints all VGA and SuperVGA screens to HP LaserJet compatible printers. It handles all screen resolutions.

Laser Letter head PLUS, has the same features as THE LETTER HEAD KIT plus the ability to work with most popular word processing programs.

This complete mailing list management program received the PC Magazine Editors Choice award. Jim Seymour wrote "Labeling Utility".

LaserBinder is a file printing utility for owners of the Hewlett-Packard LaserJet or compatible printer. Lots of nice features.

A multi-purpose floppy disk label printing utility that supports IBM Proprinter II, and Epson LX-800 printers. It now also supports HP LaserJet printers.

How many times have you wanted to setup a printer but had no real simple way of doing so? Unlike other printer utilities, ANI is simple.

A small, fast, "Pop-Up Window" program for creating and printing LABELS. It is ideal for those times when you need just a couple of labels.

A command-line utility which allows you to send ANY commands to your Epson compatible printer. PREPS has over 70 built-in commands.

Prints the same text on a fraction of the amount of paper normally required. It is not unusual to reduce a 100 page document to 10 pages.

Prints or displays HP-GL (HP Graphics Language - HP 7475, 7440/17440 subsets) plotfiles from CAD and graphing packages.

I built Pscript because I couldn't find any way to print batches of Paradox scripts from within Paradox.

This is version 2, ALMOST COMMERCIAL level, create customized disk jackets, with options like, adding The Print Shop Graphics Library.

PSPrint will print a text file to a PostScript printer from the DOS command line. Each page is printed with a header containing the file name.

Q-Label is a very simple program with one purpose... to print up to five lines of text on 3 1/2 " x 15/16" one up label stock.

A program which will print multiple files in a smaller yet still readable type on Epson and IBM Graphics printers.

Yet Another Calendar Printing Utility for HP LaserJet III

A printer control utility. With it, you can send control codes to your printer to activate or deactivate any of its options and features.

A collection of useful routines for adding zip to QuickBASIC programs.

The Bywater BASIC Interpreter (bwBASIC) implements a large superset of the ANSI Standard for Minimal BASIC (X3.60-1978).

An easy to use, automated Make Utility for MicroSoft's QuickBASIC. Additional support for Crescent Software's PDQ replacement.

Creates pro-quality VB source code printouts. Provides full font and margin control, headers, footers, annotation, line spacing, etc.

GIF Decompressor With Some Assembly

A professional software installation program for developers to distribute with their software. It compresses files 50%+, displays progress, etc.

ForthCMP is the Forth language compiler for computers running MS-DOS. Features of ForthCMP: Compiles Forth into machine code.

AUTOMATIC DIFFERENTIATION OF FORTRAN PROGRAMS.

JLib is a collection of Functions and Sub Procedures for QuickBasic. My goal as the creator of JLib is to make it available to all users.

IBM text-mode screen designer w/mouse interface. Operates like a Windows paint program. Popup menus, online help & on-line help.

A sample door skeleton written entirely in BASIC.

For QuickBASIC. Allows you to create executable programs with these mouse routines. Quick Library of the mouse routines.

A library for QuickBasic v1.0-4.5. Over 300 routines of all descriptions. The successor to AdvBas.

PowerBASIC Wizard's Library for Spectra's PowerBASIC. Over 200 routines, including archive and disk directory viewing, time, etc.

PCBoard BBS Code Screen File Viewer. All variables such as USER, BPS, etc. are replaced with dummy text, simulating offline.

Allows you to create cross-referenced help files that are available at the touch of a key. Add help to programs with inadequate help.

PPM is a project manager that allows Builder or BASIC users to have complete control over their program's development. Edit, compile, etc.

A drawing tool for all QuickBASIC users. Now easily add the impact of full, 256 color graphics to your programs and presentations.

Replaces the default QuickBASIC and PDS support libraries. This makes your .EXE files smaller, down to as little as a few Kbytes.

Advanced function library for Microsoft BASIC compilers.

4GL with dBase database & full indexing, a screen and forms designer, a folding text editor, debugger and executable file generator.

A DOS window environment for organizing a software project's files and names. It comes with menus, mouse support and online help.

A way to calculate the time you spent calling out during a specified month. Shows local & long distance calls you made. ADDPDL was designed specifically for the purpose of downloading and recording stock, bond, mutual fund and market indicator information.

Pick-Up is an accessory script for the Telix communication program. Makes your regular uploading/downloading easy and automatic.

A professional network EMAIL management system. It is self installing, FidoNet compatible, and is complete in terms of it's functions.

TestPort will assist you in learning more about serial communications and understanding your modem.

Personal Ticker Tape, PTT, is a software program designed to assist you, the investor, in maintaining current security data.

A utility allowing a user to create his own personal files list based on interests. Why download complete file list? Choose directories.

A lean and mean DESQview-aware comm program. Main features:

RECORD is a SALT Script Creator for the TELIX comm. program. It "watches" you as you perform your online movements, in real time.

Scrollback buffer utility. Lets you scrollback, in full color, through lines that have scrolled off the screen. SCROLLit features scrollback.

Features: Ability to view .GIF files while they're being uploaded and downloaded. Very fast decoder, 20% faster than VPIC or VPIE.

Simple, very powerful, and easy to use! Just add modem. Has everything you basically need to enjoy Telecommunication.

(SALT Learn Utility) Automatic script writer for Telix users. Automate logons, complete sessions, even up and downloads (with zmodem).

A zmodem-compatible protocol with a few added features. It is fully compatible with normal zmodem, but adds special features.

This program takes a TELIX.FON file and lets you move the records in it around into any order you want and then saves the file.

Powerful comm program, TELEMATE is a multi-threading communication program. Featuring ANSI/Avatar/VT52/VT102 terminal emulation.

A simple, fast, stay-in-DOS program menu and/or drive/directory hoper. Directories, programs and descriptions easily added and deleted.

A program that helps manage files that are in compressed (compactd) format or helps manage files by compressing them easily.

A utility for automatically identifying .ARC .ARJ .HYP .LZH .PAK .SQZ .ZIP .ZOO .GIF files by SIGNATURE, not extension, in real time.

A program that allows the user to store one or more files in a compressed format in an archive file. This saves space both in memory and on disk.

A simple command line utility to use in batch files to prompt for Y/N questions, and have the DOS Errorlevel set on exit. This is useful for batch files.

Splits and sizes all types of files, including archived files. Will split to a size to fit specific floppy format or to user determined size.

UPDATE for PKZ204E. This great archive shell handles EVERY popular archiver including .ZIP .ARC .ZOO .PAK .ARJ and more.

A utility for AuTOMATICALLY creating and executing BATch files which consist of a list of files, each associated with the same DOS command.

Batch Utilities; Stackey is a keyboard stuffer with record capability, pauses for text and more. Batutil is a batch language including macros.

DOS Configuration Manager

A file-authentication program that may be used to check other programs for signs of tampering. VALIDATE uses two discrete keys to verify files.

A disk/file manager featuring side by side file listing or directory tree display, full suite of dir/file services, including tree "pruning".

CHP copies a file to diskettes, using only the space available on each disk, and requires no special formatting or other operations.

Cipher is a program that scrambles files so that no one can use them - unless they have the correct key.

A TSR to perform tasks at designated times. Tasks that can be performed include displaying the current time (and optionally date).

A no-nonsense, easy-to-use hard disk menuing utility for the beginner as well as the advanced user. It suits the user who has a hard disk.

Helps manage the multitude of switch combinations for DOS 5's DIR command. Provides menu-driven interface for selecting files, directories, etc.

Move/copy/etc. files, create archives, change time/date attributes, and much more. Advanced user-defined commands and shortcuts.

8 utilities: Disk scan routine SCANDISK.EXE, Permanent sort & compact directories SORTDIR.EXE, Disk optimiser routine DISKOPT.EXE, etc.

The FIRST disk cataloger created specifically for 4DOS. Edit create description files, catalog disks, print 4 styles of labels, diskette labels, etc.

EasyBoot enables you to have up to 10 different AUTOEXEC.BAT and CONFIG.SYS files. This would be useful, for example, for booting into different configurations.

A powerful, function-loaded shell that streamlines use of PKWARE INC.'s legendary archiving utility, "PKZIP" providing easy menu-driven operation.

A unique file viewer that allows you to view and manipulate ASCII, dBASE, ARC, ARJ, LZH, PAK, ZIP, BIF, GIF, PCX, TARG, etc.

FC is a utility for comparing DOS text files. Its features include: Speed. Side-by-side or over-and-under display. Case sensitive comparison.

Subdivides large DOS files into two or more subfiles Various options to select subfile size, remainder in first or last file and fill characters.

Locate files on all or selected local and/or networked drives. Also find duplicate files on all drives. This update now correctly finds files.

Menu driven disk file manager utility; single file/groups quickly marked, acted upon; copy, move, spawn, append, erase, rename, etc.

To display the names and attributes of files contained within archive files with extensions of ARC, ZIP, PAK, DWC, LZH, ZOO, etc.

A menu system, GUI, mouse support, password protection and much more.

Provides the current time and date and a greeting to you with "Good Morning", "Good Afternoon", etc. -- depending on the time of day.

This is a package of several handy utility programs.

Menu for Norton Utilities 6.0

Fill Diskette is a Windows 3.x based utility, used to transfer files from a directory to a diskette. It is designed to select the files and folders, etc.

Good backup program runs in background. Easy to configure, compresion options, more.

WinBack 3.1 brings the power and ease of use features of the windows environment to a new back up system eliminating the need for a separate program.

"Diskette duplication -- Fast, Safe, and Easy to Use" Features single pass operation, format conversion, background operation, etc.

The Diacritic Key Translator. Accent is a Windows application that enables you to input special characters that are not normally available in the keyboard.

## Sheet1

An Ada programmers editor for Windows 3.1. The program is designed to take advantage of the graphical environment to make it more button-down for Word Perfect for Windows, the easy enhancement program that makes WPWin handle the windows environment. Clipbox is a small utility written in Visual Basic (VBRUN100.DLL is required). Whenever a cut or copy is made to the Windows clipboard, a window will appear with the contents of the clipboard. A multiple text file editor for MS WIN. Opens more than one text file within the same program. Types for you! Auto-learns words & phrases YOU commonly type. Predicts upcoming phrases, 1 HotKey types it. An editor for text based .ini files (.ini files that most WINDOWS applications create, except for Winword and Quick-C.) HexEdit allows viewing and editing of files within Windows. Includes a binary/octal/hex calculator. Now with highlighted word count. If you often find yourself editing your WIN.INI, SYSTEM.INI, or any other INI file before you start Windows, then this program is for you. A macro package for WordPerfect for Windows, versions 5.1 and 5.2. Retrieves a letterhead, fax cover sheet, or invoice, and more. "A fine, fine product, The QEdit of Windows" POWERFUL - NO LIMITS on file sizes. Split screen editing of one or multiple files. In file mode, MixCase opens a text file to convert to mixed case. Mixcase first converts all characters to lower case, then MixCase converts the rest to upper case. NoteMan is a replacement for all of the scraps of information that defeat all attempts at organization. It is a personal information manager. PowerBar/Notepad is a "better Notepad" because it is Notepad, but with the added ease and capabilities of a buttonbar, much more powerful. A lot of Windows users think of Write as an underpowered word processor, we who like it find Write's very lack of "power user" features. PowerPad is a shareware Windows text editor. It is similar to the NotePad editor that comes with Windows. Not just a simple message system... It is a Micro Object compiler which generates TRUE "NE" executables which will run from a single file. This product will let anyone, even a beginner, produce high quality printed documents with windows. Features include: the screen editor, a printer driver, and a font manager. Provides a Windows 3.1 user with the ability to edit ANSI display screens without exiting Windows. While it is not as full featured as QEdit, it is unique among the current crop of programming editors. This uniqueness is WindE's strength. Winfiler has been designed to be used as a simple ASCII text editor for modifying system, INI files or for writing BAT files. A HEX editor for windows... Thats it, just the HEX. WinOutline is an outline editor. It has several word processing features that help to create and maintain outlines easily. WPEdit is a programmer's text editor for Windows. It's not as full-featured as Brief or QEdit, but it is quite easy to use and it is fast. ZapEdit allows programmers to write MS Windows programs in C (or any other language) and compile and debug them without leaving the editor. For young children learning to count. This program has colors and noises to help keep the attention of most kids. I wrote the ABC Learn program as an aid to help my 3 year old son learn to recognize the letters of the alphabet. A children's educational program running under Microsoft Windows 3.0 and 3.1. It is designed for children from 2 to 6. A Periodic Table of Elements. Just click on an element with the mouse and a window will appear with the element's data. A real nice Periodic Table of the elements. Great for students. This program is a gas! Pardon the pun. Engine is a simple 4-stroke gas powered motor with something wrong. Can you fix it? Advanced Windows based GradeBook for the professional educator. Req VBRUN300.DLL, 2MB and win ver 3.x. Online help included. A book by Duane Bailey. The material is about half scientific, and half human/Christian. The first half contains the science. The second half contains the human/Christian. Translate English to Katakana, and back. A children's educational program running under Microsoft Windows 3.0 and 3.1. It is designed for children from 2 to 6. A children's education program running under Microsoft Windows 3.0. It is designed for children from 2 to 6. The best PTE I've ever used! Very well done, easy to use. Intelligent self customizing typing tutor. Super easy-to-use TOUCH TYPING TUTOR for Windows 3.X. Whether you want to learn to type or just want to improve your typing skills, this is the tutor for you. A MUST HAVE shareware tutorial package for all shareware disk vendors and computer users. This colorful menu driven tutorial package is a must have for all shareware users. Fun little program to aid in State's identification. Includes distances and driving times. Open a text file, and Vocabulary Builder will produce a list of the words contained in the document. You can save the list as a text file. A computer-based Atlas of the United States. It contains information for 51 states (including the D.C.) and on more than 150 cities. This is fun way to test your I.Q. Lets you edit the WININI file. Very handy! A complete archive manager. A Windows auto-save program. AutoKey periodically sends any menu command or keystroke to other Windows programs. It is a clipboard enhancement. ClipMate remembers all text items that appear on the clipboard. You can retrieve, edit, and append to the clipboard. Zip Shell for Win 3.1 File Manager or any file manager that supports Drag and Drop. ASP Shareware. Drag And Zip makes a zip file of a directory. A premier file search utility for Windows. A simple yet powerful file viewing program. Automatic file opening.

## Sheet1

A Microsoft Windows utility that allows you to search multiple disk drives for file names that match a given file specification, Extensions to the File manager of Window's 3.1. They use the drag and drop facility of the File manager to enhance it. Dramatically improves Windows Program Mgr. Instead of replacing ProgMan, Plug-In simply makes it BETTER! Major features: A set of utility programs that perform the function of finding the location of a file or files on your system. QFIND uses a different The first true, 100% compatible Windows ZIP/UNZIP utility. The waiting is over! You will never again have to leave Windows Manage deleted files. Safe Erase makes an image of the file before it is deleted to allow your retrieval of the intact file if you The ultimate file transfer and synchronization program.

TLCFnd can be used to locate files by name or by contents. The program can search multiple disks and directories for file names TLCPak can be used as a frontend for PKZip or as a standalone file compression routine.

If you use "floppy net" to move files back and forth between computers, you NEED this program!! WinUpD8R can automatically Shows all readable text in any file, Shows HEX address of found text, supports drag & drop.
