**Distribution Requirements:**  
-----

**Limited Distribution License:**  
~~~~~

As the exclusive copyright holder for WinModem-Plus, Information Technology, Ltd. authorizes on-line distribution only in accordance with the following restrictions. Disk Vendors and Distributors should refer to the VENDOR.WRI text file for complete license information.

The WinModem-Plus package is defined as containing all the material listed in the PACKING.LST text file. If any files listed in the PACKING.LST text file, or the PACKING.LST file itself, are missing, then the package is not complete and distribution is forbidden. Please contact us to obtain a complete package suitable for distribution.

The WinModem-Plus package - including all related program files and documentation files - CANNOT be modified in any way (other than that mentioned in the following paragraph) and must be distributed as a complete package, without exception. The PACKING.LST text file contains a list of all files that are part of the WinModem-Plus package.

Many BBSs customarily add a small text file (advertisement) to each archived file. This text file describes the BBS and tells people that the file was downloaded from that particular BBS. Other BBSs add a small one-line message with their BBS name and phone number into the compressed file, which will display when the file is uncompressed. Either of these methods of mentioning your BBS are acceptable and may be used, provided the program and documentation is unmodified and complete.

Information Technology, Ltd. prohibits the distribution of outdated versions of the WinModem-Plus package, without written permission from Information Technology, Ltd. If the version you have obtained is over twelve (12) months old, please contact us to ensure that you have the most current version.
