HELP

1.1 main

```
                I.
                 Buttons
                II.
                 Menus
                III.
                 Keystrokes
                IV.
                 Mouse
                V.
                 Arrow Keys
                VI.
                 Function Keys
                VII.
                 Environment Variables
```

1.2 AmigaGuide® Help: Buttons

Contents – Display the Table of Contents document for the current database.

   Index – Display the index document for the current database.

    Help – Display the help document for the current database. If the
           database doesn't have a Help document of its own, then the
           global Help database will be used instead.

 Retrace – Go back to the previous node.

  Browse – Step through the documents in sequential order, in the order
           they appear in the database.

1.3 AmigaGuide® Help: Menus

```
Project
-------
           Print - Print the current document to the current print
                   device.
    Close Window - Close the active document window.
            Quit - Close all windows for the current database, and exit.

Edit
----
            Mark - Start marking a block of text for copying to the
                   clipboard.
            Copy - Copy the current document to the clipboard.
      Select All - Select all the lines of the current document.
  Clear Selected - Unselect all the lines of the current document.
  Print Selected - Print the selected lines to the current print device.

Navigation
----------
  Find Document... - Locate a document.
      Find Text... - Locate all occurrences of text within the current
                     document.
        Find Next - Show the Find Text document.
     Set Bookmark - Save the current location to the bookmark file.
  Go To Bookmark - Go to the location indicated by the bookmark file.
```

1.4 help_keystrokes

```
        TAB - Cycle forward through the buttons.

  Shift-TAB - Cycle backwards through the buttons.

       HELP - Display this document in its own window.

        ESC - Close the active AmigaGuide® window.

  Backspace - Scroll backwards a page.

     RETURN - Activate the default button (the highlighted one).

Shift-RETURN - Activate the default button (the highlighted one).
              If it is a document, then load it in a new window.

      SPACE - Scroll forwards a page.

          > - Go to the end of the current document.

          < - Go to the beginning of the current document.
```

1.5 help_arrows

```
         Up - Scroll up through the document.
```

```
      Down – Scroll down through the document.

   Shift-Up – Go up a page in the document.

 Shift-Down – Go down a page in the document.

     Alt-Up – Go to the beginning of the document.

   Alt-Down – Go to the end of the document.

       Left – Scroll left through the document.

      Right – Scroll right through the document.

 Shift-Left – Scroll left one window-full through the document.

Shift-Right – Scroll right one window-full through the document.

   Alt-Left – Go to the extreme left of the document.

  Alt-Right – Go to the extreme right of the document.
```

1.6 help_function

```
 F9 – Activate Next Window.

F10 – Cycle active AmigaGuide® window front to back.
```

1.7 AmigaGuide® Help: Mouse

```
       Select – Over a node, will activate the node.

 Shift-Select – Over a node, will activate the node.  If it is a document,
                then load the document in a new window.
```

1.8 AmigaGuide® Help: Environment Variables

```
Use the DOS command, SetEnv to set any of the following variables.

 AmigaGuide/Path
  This variable contains the list of path names that AmigaGuide®
  should search through when it attempts to open a database.

  For example:

    SetEnv AmigaGuide/Path "Workbench:Autodocs Workbench:Includes"

 AmigaGuide/Pens
```

```
Gives you control over the colors that AmigaGuide® uses to
render the text and link points with.

   SetEnv AmigaGuide/Pens <abcdefgh>

where:

   a = Background pen
   b = Button text pen
   c = Button background pen
   d = Highlighted button text pen
   e = Highlighted button background pen
   f = Outline pen
   g = Highlight outline pen
   h = Text on background pen

For example:

   SetEnv AmigaGuide/Pens 21213001
   SetEnv AmigaGuide/Text BOLD

will give a very sharp look.

AmigaGuide/Text
 Enables you to determine what the link points look like.

   SetEnv AmigaGuide/Text <style>

where style can be one of the following:

   BUTTON
   HIGHLIGHT
   UNDERLINE
   BOLD
   ITALIC
```
