Quick Zip 4.60 Beta
http://www.QuickZip.org

What's this?
Quick Zip is a powerful and fast utility that provides support to zip and other popular archive formats.

4.60.10
New Archive finder is included, to improve search speed you have to update database first.
I have updated many components in this release, please report if anything is not working as usual (especially Akp scripting)

Important!
Please do NOT install Quick Zip 4.60 over any previous version. (3.00/2.00/1.80).
Please install over 4.50 installation or uninstall 4.50 first.
Author e-mail is changed from lycj *at* yahoo.com to author2004 *at* quickzip.org, as lycj *at* yahoo.com is no longer useable.

Translation
Please run {QZ}\QuickZip.exe "/trans" to generate translation script, read help file for more info, thanks for translating.

Beta
Use this beta at your own risks, Please report problem on **BETA** Board.
This beta WON'T expires (dont waste my time writing that kind of stuff).

License
Just like all previous version, the QuickZip 4.00 is freeware, and I have no plan on turning them into shareware or adware in near future, so I cant afford advertising (as well as binary hosting), if you like this product, and you have a web page, please advertise us by placing our logo on your web site.

It's unclear in QuickZip 1.80 that if you can use in profit organization or government, QuickZip 4.00 is Freeware and you can use it WITHOUT any limitation.

As for distribution, you can distribute it as long as it's not modified. You can include QuickZip in

your product too.
