

ATTENTION ARTISTS AND CALLIGRAPHERS!

DAUB Dynamic Brush

Want to try something different? Experience DAUB's vector graphics with a free-flowing bitmap style feel. Doodle, create some art, experiment with special effects or create a calligraphic masterpiece. Here's some advice from Jerry Olsen, who writes for such magazines as PC Magazine and Alternative Computing Magazine:

'Whether you want to imitate ancient scribes to create unique invitations, pen Japanese word forms, or paint on an electronic canvass, run - don't walk - to try this marvellous shareware Windows product.'

And from Daniel Rutter, PC Review:

'...its big strength is that it lets you do calligraphic tricks on your computer... the results can be quite striking.'

Currently at Version 2.0, which was developed with considerable input from professional calligraphers on the Internet.
