Story Overview:

The outcome of WWII is in your hands.

Wage war with the first PC game to offer truly dynamic battle campaigns set in the greatest conflict in the history of mankind—World War II. Experience the entirety of the war as you command land, air and sea units in battles across the world including Europe, Africa and Asia. Choose to play as any of the 5 superpowers – each with their own unique and authentic weapons and capabilities. At your command are the massive land, air and sea war machines of the USA, UK, Russia, Germany and Japan.

Product Description:

Axis & Allies (A&A) recreates the entirety of WWII in an epic RTS that sets a new benchmark in this genre. **A&A** provides players with the opportunity to lead massive armies into battle, undertake alternate history campaigns that play out against the backdrop of WWII, and play exciting multiplayer games. With each battle fought in real-time, comes the opportunity to revise history itself.

Game Features:

- Dynamic Campaign – Lead one of the five WWII superpowers to world domination. Each time you play the war will unfold in a different way so no game is ever played the same twice.
- Linear campaigns – Play the Allies through historical missions or play the Axis through a what-if alternative history
- Command land, sea and air units in real-time; each superpower features authentic and unique units
- Extend your realm of control and maintain your ability supply troops and units
- Interact with Generals and Leaders of the era: Rommel, Eisenhower; Yamamoto, Zhukov and Montgomery
- Play online with skirmish and instant action modes
- Developed by TimeGate Studios, creators of the Strategy Game of the Year—*Kohan*
