FACT SHEET

Deer Hunter® 2005 FACT SHEET

Platform: PC
Release Date: September 28, 2004
Developer: Southlogic
Publisher: Atari, Inc.
Category: Hunting
ESRB Rating: RP Rating (Expecting T)

Fantasy:

- Experience the true hunting experience on your PC.

High-level Concept:

- Deer Hunter 2005 takes the best-selling PC hunting franchise to a new level. With all-new graphics and gameplay, *Deer Hunter® 2005* represents the most robust hunting experience available.

Core Gameplay:

- The most realistic, accurate and addictive hunting game ever made
- New graphics and gameplay
- Multi-player action for up to 12 players via a LAN or the Internet
- More sophisticated animal behavior models for increased gameplay depth and challenge
- New Custom Map Editor, allowing fans to create their own hunting scenarios
- 8 hunting sites including locales such as the Pacific Northwest, the Southeast, the Northeast, Canada, Australia and Germany
- Six species of deer including the Australian Sambar Deer and the European Roe Deer

Brand Information:

- Best selling PC hunting franchise since 1997
- Deer Hunter has sold over 4.6 million games thru 2003
- More realism, more locations and more deer variety
- Most advanced animal AI for more compelling gameplay
