

# Alienware® Area-51 5550

## Description

The Intel based Area-51 5550 is a custom-built, high-performance gaming desktop manufactured with state-of-the-art components and innovative technology to ensure the highest levels of image and sound quality possible without sacrificing an ultra-smooth gaming experience. The Area-51 5550 is the ultimate combination of power, performance and style.

## System Features

- Area-51 5550's new and improved 1066MHz system bus provides up to 25 percent improved system responsiveness
- Next-Generation PCI Express bus architecture
- Featuring DDR2 SDRAM designed to process critical information at blistering speeds and achieve the highest possible performance in compute-intensive applications.
- High-definition audio renders the most convincing sonic environments possible to further intensify the gaming experience in up to 7.1 surround.
- Ten-thousand RPM hard drives and RAID technology to reduce game level load-times
- The industry's fastest Gigabit Ethernet provides a seamless multiplayer gaming experience
- AlienCare Service Program including 24/7 tech support, discounts on system upgrades, and more
