

# MOTO RACER WORLD TOUR

---

## Key Features

- For the first time ever, a simulation featuring the top categories in the motorcycle racing universe: Supercross, motocross, street racing and racetrack events
- Incredible new disciplines including freestyle jumping contest, trials, dragster and traffic races
- Single Race, Practice, Championship, Time Attack and **Arcade** modes
- Supercross events feature awesome recreations of licensed stadiums and arenas, including Stade de France, Belo Horizonte and Barcelona
- Speedtracks boast superbly realised licensed race courses from around the World, such as Suzuka in Japan, Eastern Creek in Australia and Sachsenring in Germany. Additional tracks based around the legendary Trophy course on the Isle of Man and the Motocross tracks of France and the USA
- True simulation of motorbike behavior using manufacturers' data and telemetric information. Discover different sensations while piloting each type of motorbike available: 125cc and 250cc in mx and sx, 250 and 500 cc in speed racing, trial motorbikes and dragsters.
- Moto Racer World Tour has a new dynamic engine bringing an unmatched realism in a motoracing game: independent back and front suspensions, full interaction between the pilot and the motorbike, gyroscopic effect, improved steering control, full control of the e during jumps thanks to suspension compression.
- motorbikHyperrealistic movements of pilots thanks to the new animation system based on inverse cinematic
- Immersive sound environment using high quality samples from real motorbikes, studio quality music
- Photorealistic circuits reproduced on location, immersive sound environment using high quality samples from real motorbikes and hyperrealistic movements of pilots all combine to bring gamers the ultimate realistic racing experience!
- 2 player mode available in all racing disciplines
