

# Rugrats Royal Ransom for PlayStation2

The Rugrats embark on a magical adventure to Stu Pickles' Play Palace 3000 (PP3K). As Tommy, Chuckie, Kimi, Phil and Lil all take turns climbing up to the PP3K, they soon find that something's amiss. Every time they climb higher, the Palace moves further out of their reach. Angelica, who has self-appointed herself Queen of PP3K, dubbed the rest of the Rugrats as her loyal subjects who will need to obey her commands. As the Rugrats defiantly refuse Queen Angelica's demands, they each find their most treasured items haven fallen in her possession. Tommy and company must now begin their adventure to reclaim their treasures so they too can play in the PP3K.
