

Empire Joins Forces with Ford

Ford is without a doubt one of the biggest and most famous brands in the world. With the Ford brand comes one of the biggest and most famous product ranges ever. Ford Racing Evolution takes this amazing range of vehicles, from the 1968 Mustang to the latest Mustang GT Concept car. If you know about the cars, the racing or the famous Blue Oval – then you deserve to take control and have the drive of your life!

With so many cars at your disposal we'll make sure you have a whole host of challenges to put them through. Standard racing around tracks and ovals will be there for you to tear around; off road courses to test your Rally skills and even some more diverse inner city chases and curvy country lanes to test your driving skills. And of course, there'll be plenty of two player challenges to pit you against too.

But like so many things in life, if you want to get your hands on *all* the Ford cars available, then you'll have to earn them. Each track, race and fun pursuit will have its respective challenge, which will unlock a new car if you can beat it. All of these vehicles will have their strong points but it will up to you to master them.
