

THE SOFTWARE TOOLWORKS®

# World Atlas

## Version 5 for MPC Quick Start Card

### *System Requirements*

There are a few minimum requirements to run *World Atlas* MPC successfully.

### **Hardware**

- IBM PC or compatible with 80386 processor or higher
- 4 MB of memory or more
- MPC-compatible sound card and MPC-rated CD-ROM drive
- Hard disk
- Super VGA graphics adapter and color monitor running 256 colors or better
- Fully Microsoft-compatible mouse

### **Software**

- DOS 5.0 or higher
- Microsoft Windows 3.1 or higher (running in enhanced mode)
- MSCDEX 2.2 or higher

### **Installation**

1. Insert the CD-ROM disk into CD-ROM drive with the label side up.
2. From the **Windows Program Manager**, open the **File** menu and choose **R**un.  
The Run box appears.
3. In the Command Line box, type **D:\SETUP.EXE** and choose **OK**.

Note: If your CD-ROM drive is another letter, such as E:, substitute that letter in the Command Line. For example, type **E:\SETUP.EXE** and choose **OK**.

4. The *World Atlas* for Windows Installation box will prompt you for the hard disk destination drive and directory. Enter your selections then choose **Continue**.

Setup automatically places the *World Atlas* icons in a new group in the Program Manager window.

# Starting World Atlas

1. From the **Windows Program Manager**, open the *World Atlas* group window.
2. To start *World Atlas*, double-click the *World Atlas* icon; to read the **online manual** double click the *World Atlas online manual* icon; to hear audio help, double-click the *World Atlas Audio Help* icon.

# Exiting World Atlas

Open the **File** menu, and choose **Exit** or press **Alt F3**. The Windows Program or an underlying application appears if you choose **Yes**.

# Registering World Atlas

The *World Atlas* registration card is enclosed in the package. Please fill this out and mail it. You will be eligible for product support and timely update information.
