Dragon Trap

Object:

Complete the secret magic word.

How to Play:

At the top of the window, the Magic Word is hidden by blank underlines. The number of blanks is equal to the number of letters in the word.

Guess a letters by clicking on the letter buttons on the right side of the window.

Each time a correct letter is selected, it is added to the secret word, replacing blanks where that letter appears.

If the selected letter is not used in the word, the cage that holds the Dragon is raised a bit.

If the cage is raised high enough for the Dragon to escape, the Dragon will breath fire and destroy your magic wand.

If you can complete the Magic Word before the Dragon can escape, the Dragon is harmless.
