

Masterpiece for Windows 95/98/NT

Masterpiece is difficult, but in the same time it is a very interesting and fascinating solitaire card game. For the successful solution of solitaire you should guess a situation for many moves forward. Unfortunately solitaire has not always the solution.

Masterpiece is an excellent pastime. It's a good way to relax and it really helps sharpen mental skills.

Playing Masterpiece

The object of Masterpiece is to move all the cards to the column of aces in ascending order or descending order.

To move a card, click the card you want to move, and then click where you want to move it. You can move cards according to these rules:

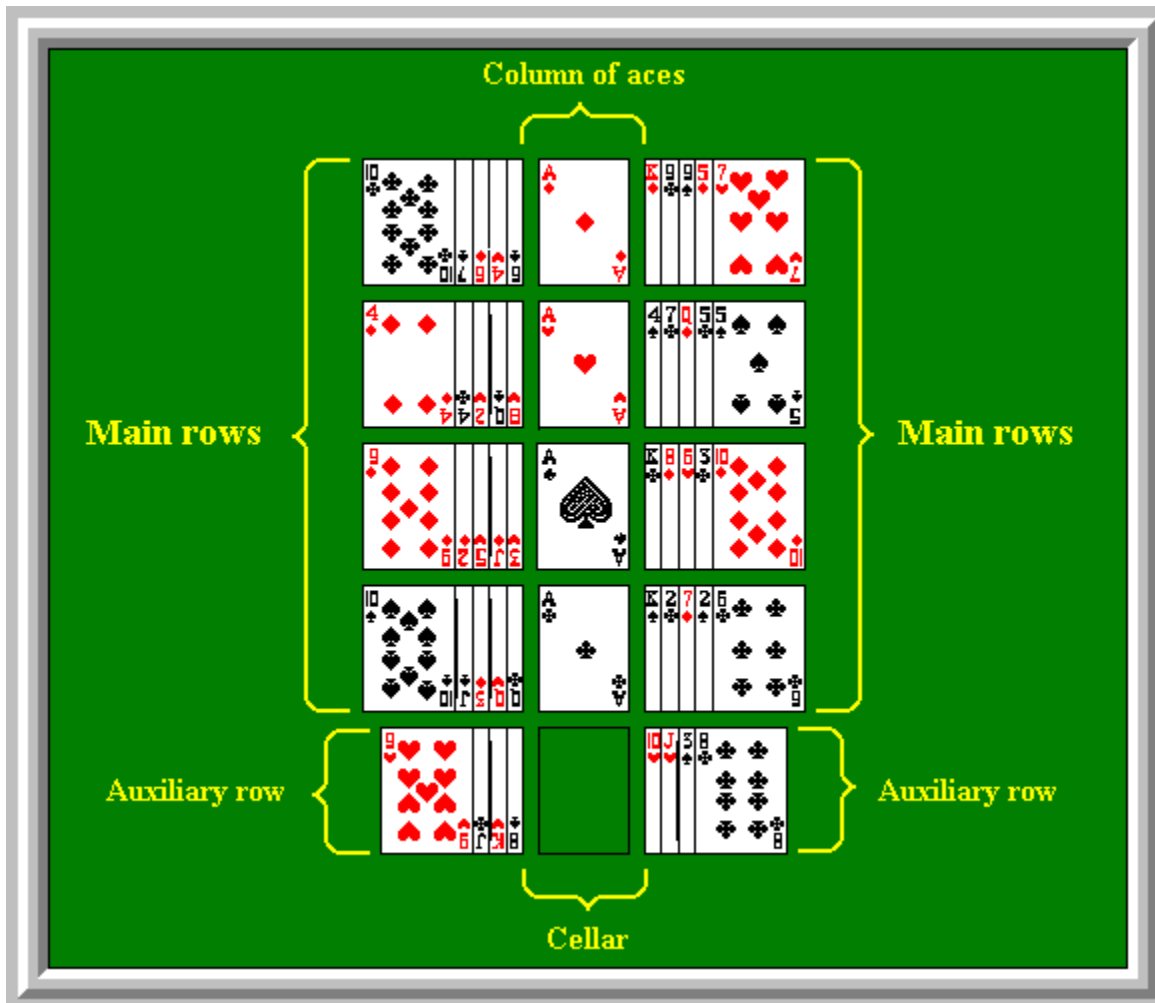

Figure 1.

1.

The card can be moved on a card of the same suit in the ascending order or in the descending order (for example, you can move the nine of clubs on the eight of clubs or on the ten of clubs).

2.

The card from the main row or from the auxiliary row can be moved on any main row or a column of aces. The card can not be moved to the auxiliary

row.

3.

The card of the main row can be moved in a cellar at any moment. However to move this card from the cellar to the main row or the column of aces you can only after one of the auxiliary rows will be finished.

Tips and tricks

You can choose the ascending order or descending order. If the first card moved on the column of aces is two that the order is ascending, if the first card is king that the order is descending.

If you successfully have solved solitaire in ascending order, you can try to find the solution in the descending order. For this purpose click **Restart** on the **Game** menu.

You can reveal a partially hidden card by right-clicking it.

If you wish to take move back, click **Back** on the **Game** menu. You can take no more than 100 moves back. It is enough end to spare.

Note

Function Back is available only to registered users.

How to register

Registration fee US \$: 20

If you would like to register Masterpiece, you can do the registration online on the Internet at

<https://secure.element5.com/register.html?productid=105363&language=English>

If you do not have access to the Internet, you can register via phone, fax or postal mail. Please print out the **following form**, and fax or mail it to:
