Rojin Art Registry

<u>NOTICE</u>

This folder contains five HyperCard stacks, labeled Untitled 1, Untitled 2, Untitled 3, Untitled 4, and Untitled 5. Each is an identical copy of Art Registry 3.1. Each needs to be renamed to match your selection of categories of art works to be registered. Read the Art Registry Manual, also included in this folder, particularly the section "Stack Categories". It explains how to use the five stacks in establishing your individualized Art Registry.
