List'r Demo Information

• This file contains full documentation for and demo version of List'r v1.6.

All aspects of the full working version of List'r v1.6 are included here, except that the file lists will only include file directories #0 (SysOp) and #1 (the first directory after Sysop dir).

The full working version List'r v1.6 can be obtained by sending $10.00 to the address below. It is also available as a part of 'CT Pak #1', a four (4) external package (List'r, Validity, BullRead'r, and End'r) for $20.00. Registered users are entitled to receive free updates and support on Currents! Technologies! home system, "Currents!" at 513-253-2476.

Thanks!,
Randy Brown
