

## Tips on using the Will Template

**This is a simple will for a married woman with two children of her own and a step-daughter.**

Naturally you will have to customize this to your liking. This isn't a big deal. Use the REPLACE command to change the following:

JANE DOE TO YOUR NAME

BILLY TO YOUR SON'S NAME

KATHY TO YOUR DAUGHTER'S NAME

PEGGY TO YOU STEP-DAUGHTER'S NAME

ROBERT H. SMITH TO THE NAME OF YOUR EXECUTOR OR TRUSTEE

Hey, let's not presume this to not need any other changes. Read everything line for line and change your pronouns, etc. as necessary. Eliminate and add paragraphs as you need.

When it's perfect, have your lawyer look at it, unless you have enough confidence to wing it yourself. You still need to have it witnessed and notarized. **CHECK THE SPECIFICS FOR YOUR STATE.** There are current books on this at your local bookstore.

This template was intended to save you typing and nothing else, except maybe encourage you to have a will. **WE ACCEPT ZERO RESPONSIBILITY** if you use it. We use it all the time and think it's fine for SIMPLE estates.

Some kind of a will is usually better than nothing. Be responsible, don't leave your mess for someone else to figure out.
