```

1.2 Little introduction

  TaskiSMS is a simple application to send SMS
messages to GSM phones. You must only enter phone number
(in international format) and click "Send SMS!". Maximum
length of a SMS message is 140 chars.

1.3 Freeware licence

TaskiSMS is freeware. You may copy it anywhere you
want. But you can't modify it. You MUST only click on my
sponsors banners.

1.4 Installation

Installation is very simple.   Just   copy TaskiSMS files
anywhere you want and run program. Required libraries you
must copy to your Libs: drawer and MUI classes to
MUI:Libs/MUI.

1.5 Requirments

Hardware
– Amiga;
– Kickstart 2.0+;
– some memory

Software:

– Magic User Interface (MUI) v 3.8 by Stefan Stuntz.
  http://www.sasg.com

– OpenURL by Troels Walsted Hansen.
  ftp://ftp.wustl.edu/pub/aminet/comm/www/OpenURL30.lha

– MUI Class, Popplaceholder by Marcin Orlowski
  ftp://amiga.com.pl/pub/mcc/MCC_Popph.lha

– MUI Class, NList by Gilles Masson.
  ftp://ftp.wustl.edu/pub/aminet/dev/mui/MCC_NList0_89.lha

– MUI Class, TextEditor by Allan Odgaard.
  ftp://ftp.wustl.edu/pub/aminet/dev/mui/MCC_TextEditor.lha

– And TCP/IP connection to the internet.   You may use
  Miami, AmiTCP, Genesis or compatible.

1.6 How to use...

To send message to a GSM phone:

Enter number into a string gadget. Remeber it must be in
international format. For example, if you want send SMS to
someone in Poland, just type +48nnnpppppp. Where nnn is
network code and pppppp is phone number. You can watch
international prefixes in popup listview.

Enter message into text editor.

Click "Send SMS!"

You can select "sending plugins" in a cycle gadget above
the banner. If your GSM network is not supported by any of
the included plugins then write e-mail to me. I will write
new plugin for your network.

1.7 Known bugs

I found only one.

If TaskiSMS crashes when you are typing message, you must
disable dictionary in TextEditor MUI preferences.

1.8 To do in next version

1. More plugins. If your GSM network is not supported by
the default Taski plugin or if you want "external" plugin
for your network, then write e-mail to me. I will write
new plugin for your network.

2. More complex adress book

3. Proxy connections via configured http proxy server.

4. Configuration window

5. I'm waiting for your ideas...

6. If someone want paint an icon for TaskiSMS, just paint
it and send to paplo@taski.com.pl

1.9 How to contact with me

                Just write an e-mail to:

                   paplo@taski.com.pl

                     or s-mail to:

                   Pawel Filipczak
                  ul.Herbsta 18/12
                   76-200 Slupsk
                       Poland
