Getting Photos

After entering the "Presto! Photo Composer" window, you can begin to load the photos you want to put together.

1. To get "My Photos," you can
 - * Get your photos from the photos chosen at the Mr. Photo window, or
 - * Download photos from Hard disk by clicking on "More photos" icon
2. Simply drag and drop the desired photo to the upper frame on the left side of the window.
3. Click on "Landmarks" icon, thumbnails of various famous spots will show.
4. Drag and drop the desired photo to the lower frame on the left side.
5. Make sure that your photo is on the upper frame and the photo of Landmarks is on the lower frame. Click on the  icon to swap foreground and background if necessary.
6. Click on Compose icon, or
Click on the OK button and the two photos will be brought together!
