

Showing Photos via Multimedia Slide Show

Creating a Slide Show

To create a slide show:

1. From the Thumbnail View, select the photos you want to be included in the slide show.
2. Click the **Slide Show** icon  on the Task bar.
3. The selected photos will be displayed one by one.

Note: If no selection is made from the Thumbnail Window, all the photos in the Thumbnail Window will be displayed.

Sending a Slide Show via E-mail

PhotoBinder can create an executable file that can be sent over the Internet or via e-mail. The receiver simply runs the file to see the slide show.

1. Select "Slide Show..." from the **Send via E-mail** submenu in the [Internet] menu. Or click the Internet icon  on the Task bar and select **Slide show via E-mail** from the Task menu.
2. Enter the appropriate details into the fields in the dialog box.

Note: Click the Setting button in the Portable Slide Show dialog box to adjust the presentation features of the slide show.

Controlling Slide Shows

The default position of the Slide Show Control bar is at the bottom of the screen. You may click the arrow at the left-hand side to hide or show the Control bar.

- Exit** Stops playing and quits the Slide Show. (You may also press the [Esc] key on the keyboard to quit the slide show.)
- Hide** Conceals the Slide show behind other active windows.
- Setting** Opens the [Slide Show Setting] dialog box where you can adjust the presentation features.
- Save** Saves all the photos or the currently viewed photo.
