

Isolated RS-232/422/485 Interface

For IBM PC/XT/AT and Compatibles

OMG-ISO-COMM1 shown smaller than actual size

OMG-ISO-COMM Series
\$334
 Basic Unit

- ✓ Two/Four Independent RS-232/422/485 Interfaces
- ✓ Reliable Communication up to 5000 ft
- ✓ Selectable Address (Including COM1 through COM4 or Any Other) for Each Port, Address up to 3FF hex
- ✓ Individually Selectable Interrupts for Each Port: 2-7, 10-12 and 15 on the "AT"
- ✓ 2 or 4-Wire Operation
- ✓ DB-9 Male Shielded Connectors
- ✓ 16550 Buffered UARTs Included
- ✓ Includes Driver Software
- ✓ Microsoft Windows Compatible

The OMG-ISO-COMM boards, available in 2 and 4 channel models, are isolated asynchronous serial communication cards that utilize balanced differential drivers and receivers to provide RS-422 and RS-485 communication. These cards are capable of providing up to 500 V dc of isolation for protection against ground loop current. Distances of 5000 ft. in noisy industrial environments are easily accommodated. Signals are transmitted and received via individual 9-pin sub-D connectors. The cards are also capable of RS-232, for applications requiring shorter distances and RS-232 compatibility. The OMG-ISO-COMM cards are plug-in cards based on the 16550 FIFO buffered UART, which is compatible with the standard 8250. Bit character lengths of 5, 6, 7 or 8, and odd, even or no parity are all available.

For those users creating their own DOS based programs, the OMG-COMM8 includes a serial communication software driver which provides fully buffered interrupt driven input and output to multiple asynchronous serial communication ports. The driver is

a BIOS extension and/or replacement that provides extended capabilities in the form of block I/O and user configurable flow control support in addition to emulating standard BIOS interrupt 14h calls. The Driver supports C, C++ and BASIC.

Specifications

- Communications Chip:** 16550 UART
- Number of Ports:** four or two port RS-232/422/485
- Max Data Rate:** 115K bps (RS-422/485)
- Max. Data Distance:** up to 100ft RS-232; up to 5000ft RS-422/485
- Operating Temperature:** 0-50°C
- Storage Temperature:** -20-70°C
- Humidity Range:** 0-90% R.H.
- Isolation Level:** 500V DC
- Baud Rate:** 50 to 115,200 Baud
- Clock Input:** 1.8432 MHz
- Slot:** 16-bit card, full size slot
- I/O Connector:** 9-pin sub-D
- Power Consumption:** OMG-ISO-COMM3: 450 mA, +5 Vdc; OMG-ISO-COMM1: 880 mA, +5 Vdc

To Order (<i>Specify Model Number</i>)		
Model No.	Price	Description
OMG-ISO-COMM3	\$334	2-port isolated RS-422/485 with RS-232 chips
OMG-ISO-COMM1	439	4-port isolated RS-422/485 with RS-232 chips

Comes complete with operator's manual and software driver.

Ordering Example: OMG-ISO-COMM1 four-port RS-422/485 interface, \$439.
