1.2 What is AGC?

FD2.0 is a Gui for Lha with the following features:

- * Add files to an archive recursively ('a' command with '-r' option enabled).
- * Make list of the files in one archive and redirect output to CON:, File, or printer.
- * Test an archive's integrity
- * Extract files from an archive ('x' command).

If you want you can set:

- * 'v' option (compression speed), -v0 is the slowest, -v9 is the fastest.
- * 'D' option (Change progress display) 0-4

For more information see the LHA manual guide.

1.3 Copyright and Disclaimer

FD2.0 is Freeware, freely distributable.

If you like this program you can send me a postcard, your software, a PPC card or.. nothing!!!

The author is not liable for damages or loss of data caused by this program.

1.4 Requirements

- * A Computer.
What's a computer? (not a Peecee, naturally)
