likewise notes these codes will be sent to you. When you receive the codes, Click on “About Master View” or “About Master Reference”, then click on the “Register” button. You will be prompted for your codes. Enter them exactly as shown on the certificate or in the email, placing each dash-separated “group” of four numbers in a separate box, and click “Okay”. About should show that you have registered!

**2.2.1Registration Form**

To register, select this form, and select “File|Print”, check “Selection”, and set other options as desired. Fill out the form and send it to:

## 3How to Use This Documentation

### 3.1Printing

After installing Master View, one may print this documentation in its entirety by selecting MASTER VIEW|MASTER VIEW from the menu. When asked for a view name, select “OnlineDocs”. Subsequently, press the “Print All” button. You will see all five documents open and close in the background several times. When finished, exit Master View by pressing “EXIT MASTER VIEW” at the bottom of the dialog. Details on what you just did will be given in MVDocs-1.DOC, the next file in this view, under the heading .

*Warning: These documents are **pages long!***

### 3.2Viewing Online

This documentation is built using the Master View Online Documentation feature. Once you have installed Master View, you may go to the next document by double-clicking the “Next Document” button below, and navigate between the documents using similar buttons on all the documents.

*Note: You’ll most likely get a few confirmation boxes popping up the first time since I doubt you have these files in the same path I have them on my machine. In the first dialog, locate the MVDocs-1.DOC file. In all subsequent dialogs, simply give Master Change the okay to make the changes. This demonstrates the power of Master Change; you can move your documents anywhere and still have your linkage working.*
