

README

To access "the Leader" magazine on this CD-ROM you must install Acrobat Reader 4.0 and SEARCH. The version of Acrobat included on this CD includes the SEARCH add-on and it is therefore recommended that you install Acrobat from the CD. Please refer to the traycard on the back of the jewel case for information on system requirements and installation instructions.

NOTE

In order to incorporate 1990-1994 issues of "the Leader" on this CD, they have been scanned. Depending upon the size and quality of your monitor, the scanned issues may be less readable. In order to improve the readability, you may have to adjust the zoom view. Use the Zoom tool or the Page Size buttons on the tool bar to adjust the view.

Where possible, full page ads have been removed so the size of each issue of the magazine is different.

For more information on using Adobe Acrobat 4.0 plus Search, please refer to Help on the second screen of "the Leader".
