This patch is freeware; all I ask for is a quick postcard or e-mail message telling me how you like the patch, etc (I'm not really a programmer, and this
only took an hour to put together, so I don't feel that asking for money is a good idea). I hope you find this useful.   By the way, thanks to Michael Hecht for his wonderful ResCompare program!

I make absolutely no warranties about this product's usefulness or completeness whatsoever, and I can't take any responsibility for any damage, real or imagined, that this patch may cause. If you follow the directions, backup your original, and move carefully, you'll have no problems anyway!!

This patch application was made with ResCompare, a free resource comparison and patch generation utility. ResCompare can be FTP'ed from most Macintosh archive sites. Send e-mail inquiries regarding ResCompare to Michael_Hecht@mac.sas.com.
