bout…

This is my Tom's Desktop Patterns I, I hope you like it. These patterns don't need any extra software, you simply drag-and-drop them into Apple's System 7.5™ Desktop Patterns™ control panel (when the control panel is open). That's it, no extra software to buy at all.

Drag and drop new patterns into the control panel

It's possible that these patterns that may work with other desktop pattern utilities, but I haven't tried it. I haven't used the other utilities since the Desktop Patterns™ control panel came out.

There are 45 patterns included in this set. I am in one of the patterns - the Baseball Cap pattern. I felt kind of silly putting out a pattern with me in it, but I figured that would be my 15 minutes of fame (is that how it goes?).

Resting Rabbit was my neighbor Denise's rabbit. Car on Street is from a view from my balcony in downtown State College, PA. There is a story behind most of the patterns. Some of them are better than others. I hope you find one you

like.

Shareware

These desktop patterns are shareware, and if you like them and use them, you must send in the $4 US shareware fee. The trial period is 30 days. If you don't send in the fee (at least some of you), I probably won't be motivated to make any more. Send check or money order payable to "Thomas J Balfe".

Note

These backgrounds may not be used as a web site background unless you receive prior written consent from myself.
