

## What is ScrapIt Pro?

ScrapIt Pro is a simple to use yet very powerful database for storing anything you can Copy to the clipboard, drag & drop to/from the ScrapIt Pro windows (for System 7.5 users), or Import (PICT files and resources, Sounds, Text files, QuickTime™ movies and more). Once stored in a scrap file, you can copy the item, (or portions if the item is TEXT or PICT), at any time to be used in whatever application you need the data. ScrapIt Pro has many uses, here's a list of some ideas:

- Use it as a super notepad to store (and create) all those notes you can't seem to keep track of.
- Use it to store your favorite letterhead(s) for your letter writing.
- How about storing all your favorite sounds or QuickTime™ movies in a scrap file.
- Keep a clip-art library of all your favorite pictures for use in letters, page layout programs, etc.
- Keep all your favorite recipes in a scrap file for instant access.

Those uses are just a start. Write and tell me what ScrapIt Pro does for you.

## Some ScrapIt Pro Features:

- Open or create multiple Scrap Files
- Open ScrapBooks in the System Folder or in the ScrapIt Folder (System 7 only) by selecting from a hierarchical menu!
- Import MacPaint, PICT, PICT resources, TEXT, "snd" (Sound) files or QuickTime™ movies!
- Import Multiple Files (PICT, Sound and Paint) (This option available only with System 7)
- Export PICT, TEXT or "snd" files
- Cut, Copy and Paste QuickTime™ Movies!
- Find an occurrence of text in any TEXT scrap item
- Select portions of TEXT or PICT scrap items
- Play sounds and QuickTime™ movies!
- Name each scrap item in a file
- Reduce pictures to display in the available area or show it in full size with the ability to scroll to see all of the picture
- Move to different scrap items by:
  - Using the scroll bar at the bottom of each window

- Choosing from a list of the names of all items
- Choosing from a thumbnail list of all items
- Searching for any characters in any TEXT item
- Typing the first characters of the item's name if in List or Thumbnail mode (sorting by name)
- Print PICT and TEXT items
- Print a list (name or thumbnail) of all items in any scrap file
- Sort the list of scrap items by name or type
- Edit or create any text item
- Drag & Drop support
- Record sounds
- Speech Manager support (have your Mac speak any text items)
- And lots more...

What comes in the ScrapIt Pro package?

Your ScrapIt Pro package should contain the following files:

- ScrapIt Pro 4.0
- SIPConvert
- ScrapIt Pro Documentation
- ScrapIt Pro - Read Me First! (a SimpleText file)
  - Registration Form (pict)

My Thanks!

I would like to thank all the people who've helped me so much with this project, by testing it, pointing out the bugs and suggestions (including Lofty Becker, Dan Deacon, Ezra Ekman (for testing and creating some of the artwork), Joyce C. Farruggia, Dee Forsythe, Steve Holden, Byron Hukee, Oliver Johnson, Stephen Kayner, Larry Kuhn, Casey Meaden, Jijnes Patel, E. Joseph Pred, Kevin Savetz, Edwin M. Uyeki, Lorne Walton, Walter Weiss) and those who have written with suggestions over the years (many of those suggestions have been implemented). I couldn't have done it without you, thanks! Also, thank you to everyone who has registered and supported my shareware efforts.
