

About VersaTile™ Pro

VersaTile Pro was written by Rick Christianson, a financially-challenged Computer Science Major at New Mexico State University. All proceeds from the registration of VersaTile are applied toward college costs. Register your copy today!

I'd like to thank the following people for their contributions:

Jim Stout for his many suggestions and the use of his 3-D controls "Jim's CDEFs", which are used throughout VersaTile.

Troy Gaul, of Infinity Systems, for his Infinity Windoid source code on which I based VersaTile's new color windows.

Robert Mah, of One Step Beyond, for his Hot Keys support which VersaTile uses to display the user's hot key combinations.

VersaTile™ Pro Version 1.2 © 1992-1995, Rick Christianson.

The above mentioned portions of code are also subject to their respective copyrights.
