Thank you.

By clicking "Accept" you agree to the terms of the MacAmp unsupported public beta preview, stated below.

- This is an UNSUPPORTED beta version. It means that @soft is unable to provide technical support for the application. Don't e-mail us the bug reports, suggestions, and so on. There is MacAmp Forum section of our website for that (see the included bookmarks).
- This is a BETA version of the software. It means that it can and probably will contain bugs that may cause incorrect MacAmp and System software functionality. You should understand that you are proceeding at your own risk.
- Over all, remember that this is just an early beta and that many of the features planned for the release are not implemented yet. Enjoy, and visit MacAmp website for the latest versions and up-to-date information.
