## **... A NEW ORCISH ORDER HAS ARISEN!**

In the aftermath of the humans being let into the portal by the Wizard Khadgar, another Portal has arisen on the farside of the world. With such little resistance left in the land of Azeroth, not expecting another attack from the Orcish Hordes, the Alliance were found totally off guard! Now it is up to you, the Gilneas Nation, who has finally decided that it is time to band with the Lordaeron Alliance in this desperate hour, with the Nation of Lordaeron, to fight back these evil beings into the portal they came from, and destroy it for good. But that's the good news...

Standing on the high mountain tops protecting the portal, and Elven Scout has made a terrifying report that has sent you running to the sight. You see the resurrected masters of the Orcish Hordes, such as Zuljin, Cho'gall, and the all mighty Gul'dan! Whether they are clones or these beings back from the dead, it is uncertain. But there is a ray of hope, both Sir Anduin Lothar and Sire Uther Lightbringer have been cloned by the mysterious Gnomish Inventors, and have been sought out to lead this defense.

You are the last hope for Azeroth, as we do not wish our world to be destroyed when our Legions in the Orcish world of Draenei come back... that is if they do at all.

***NOTICE!!!***: All of you know that you cannot change the scenario objectives in a custom level, killing all the Orcs first will finish the game with the Portal still intact. As a word of advice, I have left an Ogre entrapped in a huge mountain of pure rock, near the bottom where the other Orcs are. My advice is to leave him alive until when you are about to destroy the Frozen Portal, this way if you can get them to be destroyed at about the same time, it will seem as the Frozen Portal will be the key to the board. I was hoping that in the add on they would do something about that, but they didn't even touch the level maker in it, which I was very dissapointed with. I was also dissapointed that you can not use any of the new characters, oh well, have fun with the level.
