Film, Video, Audio & Systems Design

Firstlight Productions is a multimedia productions firm with a staff of Software Programmers, Hardware and Audio Engineers, Multimedia Specialists and Video Producers and Editors. We specialize in developing multimedia products for mass distribution such as the GateKeeper CD-ROM Series and the analog MultiMedia Video Library. We also specialize in designing and producing large scale multimedia productions for Fortune 500 companies tailored for trade shows and large meetings. Some of our clients in this area are Boeing (Paris Air Show, Farnborough, etc.), Xerox (all trade shows), Lockheed Aerospace and Pioneer Electronics among others.

On the multimedia software and hardware side we are working full-time with the leading edge companies driving multimedia on the PC to bring quality video to the computer screen. Our experience in this area along with our production skills and software expertise give us the competitive edge that few companies can claim. We have a full range of products and services available to our clients some of which include: The GateKeeper CD-ROM Series, broadcast quality video shooting and editing capabilities, custom multimedia CD-ROM's to custom designed large scale multimedia productions using today's latest technologies.
