Well, this is a multiplayer map for 4 people only.

This is a scenario entirely based on Mark 'Shmitz' Major (e-mail: mmajor@dibbs.net)
idea, wich, I must say, is very cool !

The goal is to destroy the Crysalis of your quadrant of the map, while protecting the Stasis Prison
that is shared by all players.

If the Stasis Prison is destroyed, everyone loses instantly.

To install, just Unzip it on the Starcraft directory ,

Inside the Multiplayer dialogue, go to the Scenarios folder and chose monolith !!

Any comments are welcome!
