

# *Fileware<sup>TM</sup> 3.x/w2*

**File & Document Management,  
Personal Information Management,  
and Macro Power Utilities for  
*Microsoft<sup>®</sup> Word for Windows<sup>TM</sup>***

## ***Program Un-Installer***

**Copyright © Total System Solutions, Inc. 1992-94  
All Rights Reserved.**

Use this utility to un-install ***Fileware 3.x/w2***. It will remove all the program's macro libraries. It will not delete the DLL's from the WINDOWS/SYSTEM sub-directory because other applications might need them. All together, these files are only 95 K total size. If you still wish to remove them yourself, they are: fwdlg.dll, metzx.dll, tss2.dll.
